

# Back-to-School Bonanza!

**JULY 2024 | VOL. 30**

**The summer sun is shining, but before you know it,  
the school bell will be ringing!**

Don't let the end of lazy days signal the end of creativity. CAMI believes art is a lifelong adventure, and it can be a fantastic way to keep kids engaged and learning after school or on weekends!

# SPARKING CREATIVITY AFTER SCHOOL

## DOODLING DUELS

Set a timer and challenge your child to a quick-draw battle. Choose a theme (animals, superheroes, space travel) and see who can create the most imaginative doodles in three minutes.

## NATURE'S PALETTE

Collect leaves, flowers, or interesting pebbles on a nature walk. Create a vibrant collage or a nature-inspired still life drawing or even press and dry your collection to preserve it for future projects.

## STORYTELLING WITH SCISSORS

Get those creative juices flowing with a paper collage project! Cut out pictures from old magazines or newspapers and use them to tell a story together.

## ART CLUBS

Gather friends and form a mini art club! Take turns leading activities, sharing favorite artists, or planning a mini art exhibition for parents.

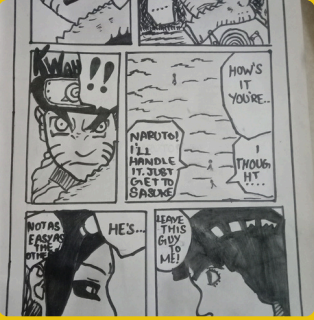

## MINI MASTERPIECES

Explore the work of a famous artists together. Then, grab some paper, paints, or crayons and create your own masterpieces inspired by their style.

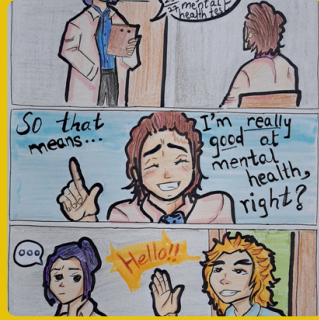

**Don't forget to visit the Children's Art Museum of India throughout July! We'll have exciting gallery updated and Monthly Art Challenges!!**
